

NxQ9000 Series

- Display
- Product Security
- Anti - Counterfeiting
- RFID for Shipment Tracking
- Sensors
- Solar Cells
- Wearable Electronics
- Energy Harvesting
- Real-time Medical Recording
- Real-time Medical Reporting

- Accommodates substrates 300x300mm², or roll to roll materials.
- UV broadband exposure with full-field global alignment or multi step quadrant exposure modes.
- Available with manual substrate loading, robotic loading or roll to roll format.
- Stage, alignment and exposure system incorporates field-proven designs
- Resolution of $\geq 2.0 \mu\text{m}$ in contact or $3.5 \mu\text{m}$ in proximity.
- Alignment Overlay of $1.5 \mu\text{m}$ 3 sigma.
